

REST CERTIFICATE

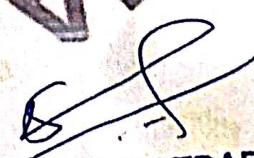

This is to certify that Mr. Amit Gupta, 28 years, Male, was admitted under my care from 17/08/2026 to 22/08/2026 for surgical treatment.

He underwent RIRS (Retrograde Intrarenal Surgery) with DJ Stenting. The DJ stent is presently in situ and further follow-up is advised as per clinical requirement.

In view of the recent surgical procedure and postoperative recovery, the patient is advised rest from work and avoidance of strenuous physical activity for approximately one month, from 23/08/2026 to 22/09/2026.

The above period is advised based on the patient's present clinical condition and is subject to review during follow-up. Fitness to resume work will be assessed as clinically appropriate.

This certificate is issued on the patient's request for submission to his office.
